

## Promo Plan - Critical Information Summary

### Information about the service

#### The Service:

Hosted Voice is a voice telephony service that is supplied over your internet service. The internet service may be supplied by Pennytel or by another service provider.

#### Connectivity

To access the Service, you may need a dedicated fixed line broadband Internet connection, such as NBN, ADSL 2+ or SHDSL.

#### Mandatory components

You may need a broadband modem for the service to work. We recommend that the service be accessed with hardware supplied or approved by us. Please contact us for further information.

#### Minimum Term

The minimum term is one month.

### Important conditions

Pennytel plans provide you with a PBX license with access to all standard PBX features. If you have current numbers with another provider for your phone service and you would like to keep them, then they will need to be ported. Additional fees apply. Pennytel plans do not support 19/1900 numbers calls, fax, dial up modem or other analogue data calls (e.g. EFTPOS, HICAPS), back to base alarms and other monitoring systems using phone lines, and similar features. Hosted Voice is not available for telemarketing, call centre function and similar uses. If you don't want your name, address or phone number printed in the White Pages® or any other directory product, you can opt for no directory listing. We will bill you in advance for the minimum monthly charge and features, and in arrears for calls. Your first bill will include charges for part of the month from when you took up your plan until the end of that billing cycle, as well as the minimum monthly charge in advance for the next billing cycle. Fair Use Policy applies.
