

Roaming Travel Pack Information

Updated: 18 May 2022

1. How to use international roaming

International roaming services are turned off by default but can be activated at any time prior to travel. To avoid bill shock, we offer a single Roaming Day Pack that is available to use in 57 countries.

Firstly, you'll need to activate roaming by calling us on 1300 758 758 during operating hours or by sending us a ticket.

Once you arrive in an eligible country and do one of the following trigger actions, the Roaming Day Pack will be added to your service automatically. A new pack will be added every 24 hours provided you continue to do one of the following actions:

- Make a phone call
- Receive a phone call
- Send an SMS
- Use data

Note: Receiving an SMS does not trigger a pack to be added, so you can turn on your phone, connect to the local network and receive an SMS without being charged. As soon as you carry out 1 of the above actions, the Roaming Day Pack will be added to your service and you will be charged \$10. Your 24-hour validity period will be based on AET.

2. Roaming Day Pack costs and inclusions

Validity Period	24 hours
Price	\$10
Included voice minutes	Unlimited
Included SMS	Unlimited
Included Data (MB)	200

Note: You will have 24 hours from the first trigger to use the inclusions of your pack, after this time another pack will be added, or you can stop using your service. If during the 24 hour period you max your included data allowance, and you have excess spend enabled for your account [excess data charges](#) will apply.

3. Where do I check my remaining inclusions?

To check your remaining data balance, and your expiry date and time, simply login to your PennyTel Account and click on "Service Details". You will receive SMS notifications to let you know when you have used 50%, 85% and 100% of your inclusion. You can also choose to receive these usage notifications by emails. Your expiry time will be in Australian Eastern Standard Time, so you will always be able to work out when your pack finishes even if you're moving between countries.

If you are roaming with the Day Roaming Pack added, you have a 24hr window to consume your 200MB included data. If you have \$0 excess spend on your account, you will not be able to go into PAYG if you finish the 200MB included data in the 24hr window. If you do have an excess spend allowance, you will be able to use more data at [PAYG rates](#) or you can wait until the 24hr window is over at which point the Day Roaming Pack will refresh its inclusion.

4. List of supported international roaming countries

This is a list of countries where your Pennytel service will work provided you have a Roaming Day Pack added to your service.

If you are visiting a country that is not listed below, then your service will not work and we recommend that you purchase a travel SIM or a local SIM in the country you are travelling to.
